

Custom Layout

Prodiags 5 allows the appearance to be customized to support the customer's brand. At the moment, you can customize the background, the main menu logo of the modules, and the logo of the PDF reports.

Background

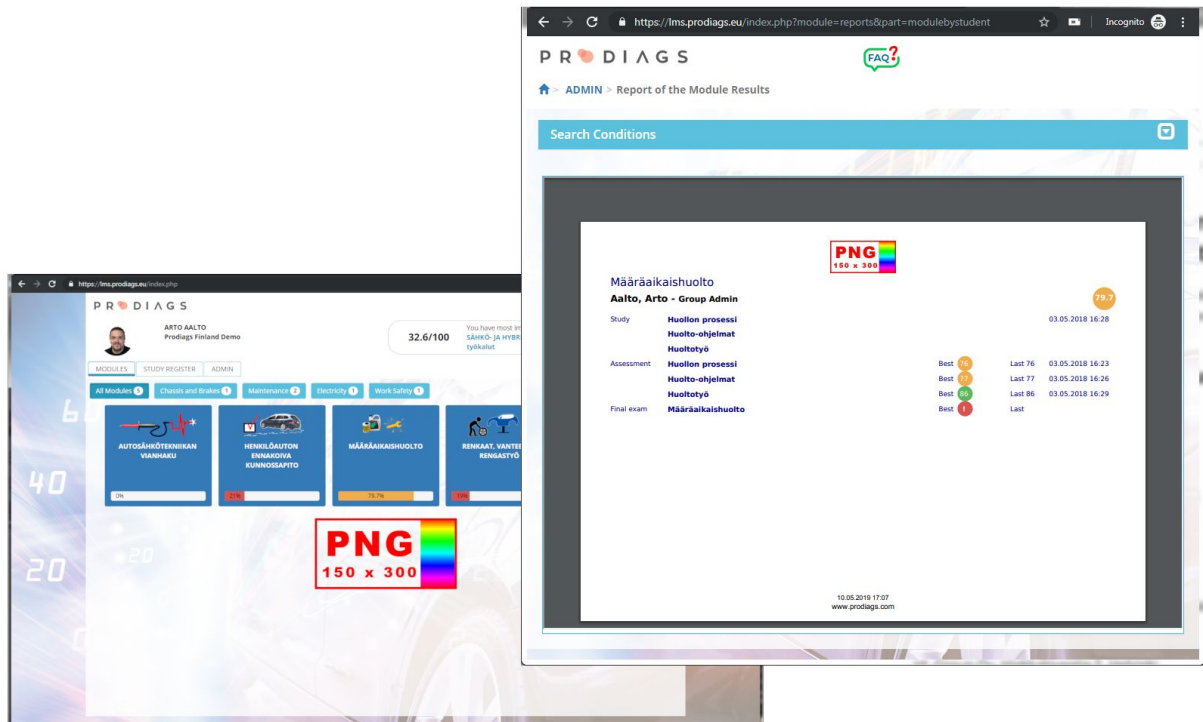

The background image can be scaled to fit the whole screen or fitted as “tile” (Same image multiple times)

Please note that the white middle part of the Prodiags workspace is 80% transparent, meaning that the background image will also slightly appear through it.

The background image should be in JPG format.

Main menu and PDF reports logo

There is an option for the logo in the main view of the course modules and in the teachers PDF reports.

The organization can have two different types of logos, squares and/or rectangles. In the main view, the square is the primary logo and the rectangle logo in the printouts.

The logos must be in PNG format. If you use transparency, design your logo so that it works visually in the way you want it with a white background. Also note that the white background in the main view has 80% transparency relative to the background image.

Enabling customization

Prodiags system maintenance/staff makes the necessary changes.

The screenshot shows the Prodiags ADMIN interface for Group Settings. The breadcrumb trail is 'ADMIN > Group Settings'. The main section is titled 'Group's Main Data'. It contains a table with the following fields:

Group Name*	Group ID
Prodiags Finland Demo	fi-demo-finland
Start Date	Expiry Date

The 'Group ID' field, containing the value 'fi-demo-finland', is circled in red.

Email us at [support\(at\)prodiags.com](mailto:support(at)prodiags.com) and add:

- Group ID
 - Can be found for example in ADMIN -> Group Settings
- Wallpaper in JPG format
- Background style setting, stretched or tile
- 1...2 logos in PNG format
 - Square
 - Rectangle

Add your contact information

Typical delivery time is a few working days.

These customizations are free for the customer.

Note!

During the customization work, we may need to add someone from our staff to your group for testing, if we found it necessary.
